Revised plans for the Iron River salt shed are expected soon, following the meeting with UPEA on January 19th to address the items that were missed in the original preliminary plans. Supt. Toivonen and Commissioner Schmidt will be attending the County Board meeting this evening to discuss getting some barrow from the mud run area at the fairgrounds, to be used to build the pad for the new salt shed. This would also help the Fair Board out as they would like to make the mud run area longer.

Research is being done to purchase a small generator for each shop, capable of running the fuel pumps during a power outage.

Primary Roads:

CR 424 PH 9/ Hagerman Lk. Rd. PH 3 (2027)- The applications for the MDOT Federal Aid exchanges for 2027

Ayers reached out regarding the load ratings after the last inspections of the FH-16 bridges. They are recommending the FH-16 north branch bridge be further reduced from 30 tons to 19,27 ton, based on the truck axels. New signs are being ordered and must be in place within 20 days.
